

## ENVIRONMENTAL SERVICES CONSULTANT

### About us

Callidus is a leading UK consultant in Health and Safety, Project Management, Asset and Property Management and Health and Safety Training.

We offer a complete consultancy service delivering competent, professional support to clients across the globe. We pride ourselves on providing unrivalled knowledge, dynamic solutions, and exemplary customer service through a fully collaborative approach.

Operating from our Head Office in Leeds and satellite office in Edinburgh, we constantly strive to bring a better perspective to our clients and the communities in which we work.

### About the role

An exciting opportunity has arisen for an individual to join our operations team in a full-time position to manage the Callidus Environmental strategy across our client portfolio and support the wider Callidus team. Reporting to the Associate Director – Head of Health and Safety, this new role is responsible for providing Environmental and Facilities Management Services for our client estate and facilities operational teams.

### Salary and Package

£42,000 - £50,000 (experience depending) + car allowance + 26 days annual leave (3 required for Christmas) + Simply Health + Death in Service + Pension

### About You

You are digitally competent, can build lasting client relationships, and have proven environmental management experience across facilities. Understanding of current government Net Zero Strategy and asset management knowledge. You will have an environmental management/facilities management background and be motivated to grow your career within our company.

- Experience working with external customer-facing projects
- Excellent verbal and written communication skills
- Organised, methodical and conscientious
- Demonstrates stability; reliability; continuity
- Team player with strong interpersonal skills
- Good general IT knowledge is essential
- Willing to travel UK-wide
- Passion for data and technology and a keen interest in learning new skills
- Excellent communication and presentation skills
- Ability to deliver high-quality work
- Flexible/responsive approach to requests from both internal and external clients

- Person who is organised, focused, logical and has excellent attention to detail
- Innovative and analytical qualities, with ability to multi-task productively and meet tight deadlines
- Advanced excel skills (arrays, user-defined functions, object model, lookups, best practices)
- Previous experience in a similar role

### **Key Duties:**

- Self-motivated and able to work flexibly and without direct supervision
- Considerable knowledge in commercial, educational and healthcare estates and facilities
- Experience in managing energy and sustainability projects
- Effective communication skills: ensuring the Callidus energy, waste and sustainability vision is shared with client stakeholders
- Knowledge of environmental management standards and compliance procedures leading to certification of ISO14001:2015.
- A demonstrable ability to assist senior managers with establishing new systems and contracts and effectively managing the transition to business-as-usual service delivery.
- An understanding of zero-carbon initiatives.
- The post holder should hold demonstrable and significant experience at middle management level within a public sector organisation or consultancy with experience in managing a range of environmental, sustainable or zero-carbon services.
- Able to help develop associated works specifications and tender documentation as part of bidding processes.
- Undertaking regular auditing and performance measurement of building assets.
- An understanding of property assets, SFG20 task descriptions, HTM/SHTM and asset compliance.
- An enthusiastic approach to supporting other areas of the business and assisting colleagues.

### **Why join us?**
